will also work closely and in partnership with other state agencies responsible for managing ocean and coastal resources as well as federal, tribal, academic, non-governmental, and industry partners.
The above is for reference.

The first ? is are you going to work with Urchin divers in making decisions for biodiversity of the Ocean. We are experts by State Of California,s opinion due to experience. We asked for the LOP to be changed and gave testimony Why but what we had to say was disregarded for speculation by the SAT. I feel The LOP in MPA's should be changed so to allow the harvest of Sea Urchins to help keep a healthy bio diversity of our ocean.

industry
partners.

Second are you going to allow fisherman to put there input into your rule making,are fisher people industry partners? Sorry for the format this was last minute since the comment time was so short and i only found out about it a few days ago. Thank you
