Hello Richard,

The petition is not an OPC document; staff neither generated nor maintains it, so I cannot add your name. I can, however, post your message alongside it on the CSSI webpage so that your views are made available.

Thank you,
Moira McEnespy
OPC Program Manager

Hello Briana

When the petition went around for signature I was away and I would like to have my name added to the Petition.

I believe that either the MSC certification program should be used or a new standard developed. I believe that the hybrid version apparently favored by the Staff will result in much confusion and expense. Fisheries that pass the MSC certification will, in my opinion, elect to use the MSC rather than the 'enhanced' California version.
