I attended the last task force meeting earlier this month.
I would like to thank the task force members for their time and dedication to this "process".

Specifically, I am offering comment on one of the "management" measures that achieved the most support at the last meeting.

I propose that the Dungeness Crab Task Force recommend to the California State Legislature that they pass legislation to support the Dungeness Crab Fishery and provide for Dungeness Crab fishing in all State waters including Marine Protected Areas.
