Caveats to Derelict Trap Data Calculation:

•Numbers are calculated using replacement buoy tags as a proxy for derelict traps (but lost tags do not necessarily mean a trap is lost since these tags can be ripped apart from buoy).

•Assuming all In-season tags replace Between Season tags, so don't count same number twice.

•Min/Max due to those vessels that landed in port area and other ports so that vessels tag number requested is a range between all tags/traps lost at port area to no traps lost at port area.

2013-14*	Geographic Area		
Vessels	Humboldt	Trinidad	Crescent City
min	26	12	31
max	46	15	51
Replacement Buoy Tags/Derelict Traps			
min	764	360	817
max	1,772	450	1,349
2014-15**			
Vessels	Humboldt	Trinidad	Crescent City
min	0	1	0
max	0	1	1
Replacement Buoy Tags/Derelict Traps			
min	0	40	0
max	0	40	16

Totals Tags Requested

2013-14	In-Season Tags	Between Season
Vessels	63	281
Total Tags	1,633	11,723

Total Tags Requested

2014-15	In-Season Tags	Between Season
Vessels	44	n/a
Total Tags	1,424	n/a

*2013-14 uses both In-season and Between Season Tags.

**2014-15 uses only In-season Replacement tags, no Between Season tags are purchased since biennial period for trap tags ends and all 2015-2017 tags will be used for 2015-16 season.
