

OPC Prop 68 Grant Guidelines Public Workshops and Office Hours

The California Ocean Protection Council (OPC) recently released **Proposition 68 (Prop 68) Draft Grant Guidelines** for public review and comment.

Funds from Prop 68 will be used to support the priorities of all OPC's [program areas](#) – including sustainable fisheries, climate change, marine protected areas, habitat restoration, marine pollution and the sustainable ocean economy (such as offshore renewable energy) – for the next several years.

OPC will **host five public workshops across the state, as well as an online webinar, to provide an opportunity for the public to:**

- learn about the Draft Grant Guidelines,
- ask questions, and
- provide feedback that will inform development of the Final Grant Guidelines.

There will be open office hours in between during which you can talk one-on-one with our staff about the Draft Grant Guidelines.

Comments on all aspects of the Draft Grant Guidelines may be submitted **through February 28, 2019** to Prop68@resources.ca.gov.

Final Guidelines will be presented for consideration and adoption by the Ocean Protection Council at its May 15, 2019 meeting. A call for proposals is anticipated in summer/early fall 2019.

Questions about these workshops? Email Prop68@resources.ca.gov.

The entirety of the Prop 68 Draft Grant Guidelines can be found on our Prop 68 Funding page: <http://www.opc.ca.gov/prop-68-funding/>.
