August 7, 2018

Dear Dr. Seibel,

It is good to hear from you, and I'm pleased that you are thinking of Hopkins as a place to conduct some of your work. We're pleased to offer you wet lab bench and seawater space for animal maintenance and respirometry during your field seasons (3 weeks in summer 2019 and 2020). Our space is heavily subscribed by faculty research and summer courses so I encourage you to get in touch early with myself and appropriate faculty should you receive support.

I wish you luck and look forward to working with you on this exciting project.

Sincerely,

Mark Denny  
Harold A. Miller Director  
Hopkins Marine Station
